

Vishal Prajapati

Full Stack JavaScript Developer

Bio

I am a dedicated web developer with a strong passion for creating modern, user-friendly web applications. Skilled in building both frontend interfaces and backend systems, I focus on delivering seamless and efficient digital solutions.

Projects

E-Commerce website :

I developed a fully functional e-commerce website designed for seamless user experience and efficient performance. The project integrates modern technologies to handle everything from user interaction to data management.

Key Features:

- **Front-End:** Built with HTML, CSS, React, and Redux for a responsive and dynamic user interface.
- **Back-End:** Developed using Node.js and Express.js to handle server-side logic and API requests.
- **Database:** MongoDB was used to store and manage product, user, and order data efficiently.
- **Functionality:** Includes features like user authentication, product listings, shopping cart, and order management.
